**Subject: Disclaimer for the Notice Board App**

Dear Sir/Madam,

We have developed the **Notice Board App** with all the software development ethics and security measures in mind, for the app to run smoothly without creating intentional or unintentional errors.

In spite of all the precautions and safety measures, there may surface some problems like:

- Server issues
- App crash due to internal device errors
- Unintentional data leak due to advance external hacks
- Denial of Service due to extra load
- Service down for maintenance (if required)

The problems stated above are just to give an image of the worst case scenarios that may arise. We've taken measures, to the best of our knowledge, to avoid such scenarios to a great extent.

Thanking You,

**Sincerely,**

**SUYASH SONAWANE**

**TEJAS MORKAR**
