Subject: Price Quotation for the Notice Board App to be used for First Year Engineering Induction Program

Dear Sir/Madam,

The Notice Board App developed for the purpose of the proper flow of notices and announcements throughout the FE batch 2019-20 during the Induction Program is projected to produce the following costing:

Firestore Storage	Per Photo	Per Day (5 Images/Day)	For 10 Days	Total	Cost
Space	5MB	25MB	250MB	250MB + 250MB(extra) =500MB	FREE
Bandwidth				250MB*900(users) ≈220GB	\$22.80* ≈1,600/-

Total = 1,600/- INR

*The Firestore costing is as per the firestore website at <https://firebase.google.com/pricing#blaze-calculator>

The projects on Firestore are billed monthly and will be billed on the following google account: devscollab@gmail.com. The projected cost may increase slightly in case of heavy usage than predicted above.

So, we look forward for the approval of the Price Quotation of **1,600/- INR** for the same at the earliest.

Sincerely,**SUYASH SONAWANE****TEJAS MORKAR**
